Mia Feng

https://skaudrey.github.io • fengmiao16@nudt.edu.cn • +86 132 7223 6003 National University of Defense Technology, Wuhan University • Changsha city, Hunan province, China

Education

National University of Ireland

Galway, Ireland

College of Engineering and Informatics, Ph.D. Natural Language Processing

10/2015 - Present

- My main research interests are transfer learning, multi-task learning, domain adaptation, and crosslingual learning for Natural Language Processing.

• University of Copenhagen

Copenhagen, Denmark

Natural Language Processing Group, Department of Computer Science

04/2017 - 06/2017

- Research visit invited by Anders Søgaard.
- Created a new model for multi-task learning that learns which parts of the model to share.

• Ruprecht-Karls-Universität Heidelberg

Heidelberg, Germany

Institute of Computational Linguistics, B.A. Computational Linguistics, English Linguistics

10/2012 - 09/2015

- Final grade: 1.0 (German scale), i.e. GPA 4.0; thesis: Construction and Analysis of an Emotion Proposition Store

• Trinity College

Dublin, Ireland

School of Computer Science and Statistics, Computer Science and Language

09/2014 - 01/2015

- Semester abroad
- relevant courses: AI, Fuzzy Logic, High-Tech Entrepreneurship

Experience

 AYLIEN Dublin, Ireland Research Scientist

10/2015 - Present - Developed aspect-based sentiment analysis (ABSA) endpoint¹ and created sentiment analysis models on-

- par with state-of-the-art².
- Developed models for a novel form of stance detection from scratch. Collected data, crowd-sourced annotations, and iterated upon the models in dialogue with the customer.
- My current work focuses on productizing research insights by developing efficient transfer learning algorithms and state-of-the-art models for novel problems as well as existing applications such as stance detection and emotion detection.

IBM Munich, Germany

Extreme Blue Intern, Watson

08/2015 - 09/2015

- Design and implementation of text analysis ML components applied to customer data of leading German insurance company Versicherungskammer Bayern; automatically identifies structural semantics and sentiment of incoming e-mails, e.g. complaints and classifies email based on reason for complaint.
- Pitched project to audience at European Expo and was chosen as one of eight teams to pitch to IBM customers; project was referred to as a "lighthouse project for Watson in Europe" by jury members.
- Project was awarded Digital Thought Leadership award in leading contest of German insurance industry by leading German newspaper Süddeutsche Zeitung and Google³ and covered by Süddeutsche Zeitung⁴.

 Microsoft Dublin, Ireland 02/2015 - 06/2015

Linguistic Engineering Intern, XBox

- Contributed to developing an ML system for analyzing linguistic complexity of strings in C# for localization prioritization during testing; performed feature analysis and framed problem as anomaly detection.
- Created proof of concept and implemented morphology-based terminology validation algorithm.

¹https://developer.aylien.com/text-api-demo?tab=absa

²https://developer.aylien.com/text-api-demo?tab=sentiment

 $^{^3}$ https://www.sv-veranstaltungen.de/site/fachbereiche/versicherungs-leuchtturm

 $^{^4}$ http://www.sueddeutsche.de/wirtschaft/kuenstliche-intelligenz-aerger-fuer-watson-1.2772927

 Evangelized customer sentiment analysis efforts, drove cross-team collaboration, and provided insights to stakeholders.

• The OpenCog Foundation

Google Summer of Code Intern

opencog.org
Summer 2014

- Implemented deductive reasoning algorithms to enable a model to make common-sense inferences, e.g.
 All men are mortal. Socrates is a man. → Socrates is mortal.
- Applied inference using probabilistic logic networks on the output of a relationship extractor.
- Documented and extended Python code for temporal inference.

Lingenio GmbH

Heidelberg, Germany

Software Engineering Intern

Spring 2014

- Created a converter from TBX to Lingenio native format and vice versa.
- Integrated TBX term bases in Dictionary Server; created localized web service using Jinja2, Flask-Babel, and lighttpd.

• SAP Walldorf, Germany

Working Student, Development University

02/2013 - 02/2014

- Created content for internal programming and Design Thinking courses.
- Automated reporting processes, e.g. reduced expenditure of work for monthly training report from 8 hours to 2 hours using Excel / VBA scripts.

• TEMIS

Freelancing Developer

O2/2013 – 10/2013

 Created a cosine metric-based word sense disambiguation system leveraging text extracted from Wikipedia and DBpedia dumps; achieved performance comparable to the state-of-the-art.

Certificates and awards

• Google Developer Expert – Machine Learning 12/2017 – Present

• Scholarship of the Irish Research Council 10/2015 – *Present*

• Scholarship of the *Cusanuswerk*, one of the 13 German sponsorship organizations 04/2014 – 09/2015

• Microsoft Certified Professional (Programming in C#) 06/2015

• Best Delegate award in various Model United Nations conferences 11/2012 – 01/2014

• Second and third prizes Bundeswettbewerb Frendsprachen, national foreign languages competition 2007 – 2008

• First and second prizes *Landeswettbewerb Mathematik*, state mathematics competition 2006 – 2008

Languages and Technologies

Programming Languages: Python, Java, C#, R, C, LATEX, Prolog, JavaScript, SPARQL

Technologies: SciPy, NumPy, Keras, TensorFlow, DyNet, scikit-learn, NLTK, CoreNLP, MALLET, Weka, UNIX, Git

Natural Languages: Fluent in German and English, advanced in French and Spanish, beginner in Portuguese and Latin

Open Source Contributions: The OpenCog Foundation
